**Amadeus Airline Ancillary Services: Book & Price from the Catalogue**

A new functionality is introduced to automatically book and price one or several recommendations returned in the output of Amadeus Airline Ancillary services (AAAS) catalogue

With this new Book & Price functionality, booking of ancillary services is made easier with automation booking format with a single transaction (new cryptic command "FWK") that allows performing two steps at a time i.e., Book and Price, thus reducing the time spent on selling ancillary services.

**Key Benefits:**

This new Book and Price functionality will allow:

- The automatic Booking
- The creation of the corresponding pricing record,

Of one or several service recommendation(s) of the AAAS Catalogue (except upgrade of Seat Services) in a single transaction.

**Mandatory Input:**

- Pricing Air segments
