## AMADEUS BOOKING PUSH – QUEUE 15

We are pleased to offer the Amadeus Booking Push solution providing the Non System User Airlines the ability to push its controlled individual and group PNRs into the Amadeus system. The transferred PNRs are placed in the Queue 15 of the agent's Amadeus office id. The functionality is based on Airlines' participation and Queue 15 is the pre designated for this product.

In line with the development of Booking Push functionality, Queue 15 is globally being renamed "PNRPUSH".

```
1735 11JUN
QUEUE...XXX6X16AX.....Q/TTL...ADDS...LQC...IW
Q15.PNRPUSH.....
DEFAULT          .C 0..... 1. 2235. 0. 2234
```

**Note: In view of the above enhancement, we request you to create and use alternate queue number in case Queue 15 is already in use at your agency.**

**For more clarification please contact your Amadeus Help desk**
