**Decommissioning of Governmental Tax details based on Tax code
FQNTAX/XX (Tax code)**

Amadeus announces change in the transaction used to obtain tax details based on specific tax codes. As the tax text will now be processed by the ATPCO tax product, the below transaction used to obtain the tax details for a Governmental tax based has been decommissioned.

i.e. FQNTAX/TAXCODE is no longer valid.

Now it's mandatory to add Country code with the FQNTAX entry.

The following entries can be used to obtain the same information about a tax code for a Governmental tax within a Country:

Mandatory Entry:

FQNTAX/Country (eg: FQNTAX/INDIA)

OR

FQNTAX/Country Code (eg: FQNTAX/IN)

Optional Entry to view a particular tax in a Country:

FQNTAX/Country Code/Tax Code (eg: FQNTAX/IN/WO where WO is the tax code)

For more information on FQNTAX, please refer to HE FQN.631 or contact your nearest Amadeus Help Desk.
